

CORE CURRICULUM TESTS

Teacher/Administrator Report

The Fine Tune Report lets you identify topics that your students completely understand.

The Fine Tune Report shows which questions your students answered correctly during the most-recent presentation of the material.

This report lists questions that 100% (or 90%, 80% or 70% - you chose) of your students answered correctly.

This lets you skip those questions during subsequent presentations of the material, allowing you to spend more time on new material or on those topics where your students need more direction.

Our intent is to help make the Click and Learn system more efficient so you can present new and challenging material in each class session throughout the school year.

Note: the accuracy of this report is limited by the fact that, with any multiple choice test, students should be able to score 25% with zero knowledge of the material. This is why we present similar questions on the same state standards several times with our bank of questions.

For more information on this concept, go to www.clickandlearn.cc/clickers

Grade 3 - Math

Class Title:
Ms. Wilson's Grade 3 Math

Data Set:
Test1. Math 3rd

Teacher Name:
Mrs. Wilson

Principal Name:
Mr. Skinner

Superintendent Name:
Mr. Chalmers

FINE TUNE - QUESTION LIST

70% of those students who clicked the answers for these questions answered correctly.

Fine tuned questions: 8, 9, 18, 19
